## SUPERMAN DATING SUPERMODEL

**CRAZY IN LOVE:** Dean Cain and sexy Esther Canadas.

**S**UPERMAN HAS fallen for a supermodel! Former "Lois & Clark" star Dean Cain, 36, met Spanish model Esther Canadas, 25, at Cannes this summer and he lost his heart faster than a speeding bullet!

"I've never seen Dean so happy," said a family friend. "Esther has changed his world."

According to sources close to Dean — now the host and producer of TV's "Ripley's Believe It or Not" — the couple met this summer on the way home from a charity concert in Cannes.

"They sat next to each other on a

jet," said a source. "The plane was heading to Madrid, where Esther was getting off, and Dean was continuing on to Los Angeles."

"They hit it off immediately and made plans to see one another as soon as Esther returned to Los Angeles."

The timing was perfect for love, since both Dean and Esther were unattached. Esther had split with her husband, model Mark Vanderloo, in 2000. Dean had broken up with Playboy playmate Samantha Torres and was battling with her over custody of their 2-year-old son, Christopher.

Dean and Esther began quietly dating.

Then Esther invited

her new love to accompany her to Barbara

Davis' Carousel of Hope Ball in Beverly Hills on October 15. It was the first time they'd appeared together in public.

"But they played it down, not posing for pictures with one another," said the source.

"That's because Dean doesn't want to antagonize Samantha and make it difficult to see his son. Christopher means the world to Dean, and he's had to struggle to see him."

But the new lovers don't intend to hide their relationship forever, sources say.

"He's crazy about her and she's crazy about him," said the source. "They're both hoping this is just the beginning for the two of them!"

### FAST FACT

Dean has his family name tattooed on his ankle in Chinese.
